

City & County of Honolulu

# EAST HONOLULU WATERSHED MANAGEMENT PLAN

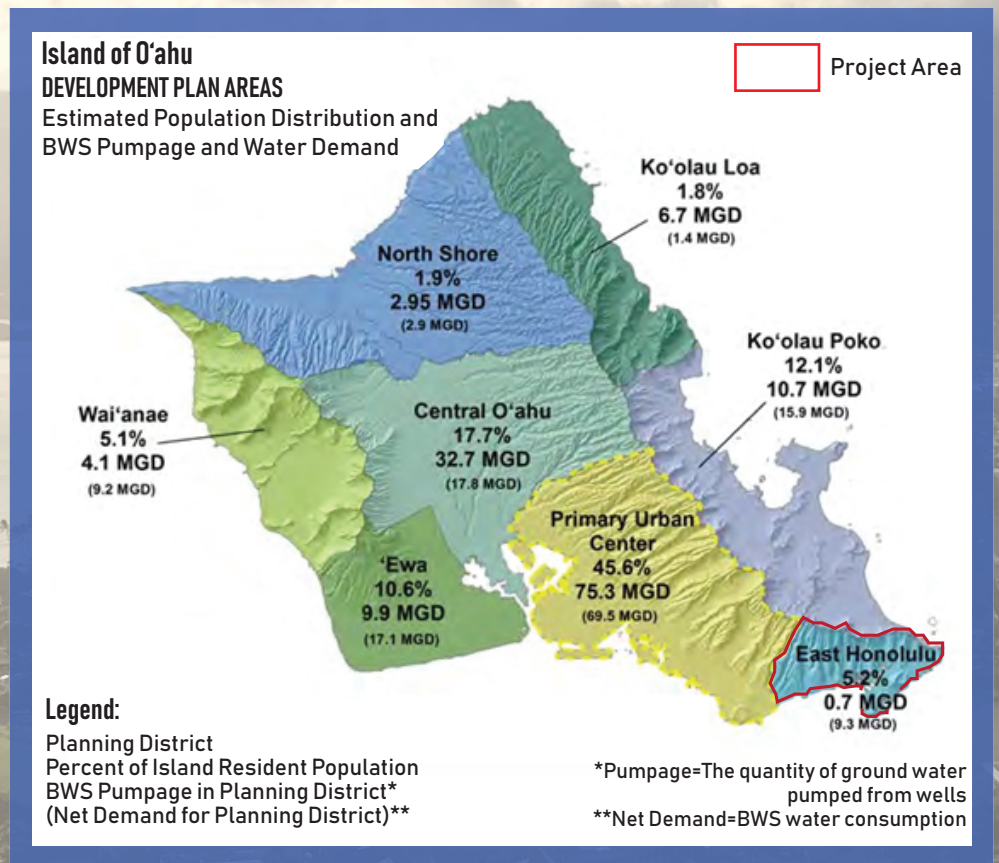

The Honolulu Board of Water Supply (BWS) and Department of Planning and Permitting (DPP) have begun the development of the East Honolulu Watershed Management Plan (EHWMP). The EHWMP will be prepared in accordance with the State Water Code Chapter 174C, HRS and the City and County of Honolulu Ordinance Chapter 30, ROH. The EHWMP will be one of eight district water management plans that together will comprise the **O'ahu Water Management Plan**.

## Goal of the O'ahu Water Management Plan:

To formulate an environmentally holistic, community-based, and economically viable watershed management plan that will provide a balance between: (1) the preservation and management of Oahu's watersheds, and (2) sustainable ground water and surface water use and development to serve present users and future generations.

## The planning process will integrate land use and water resource management to achieve:

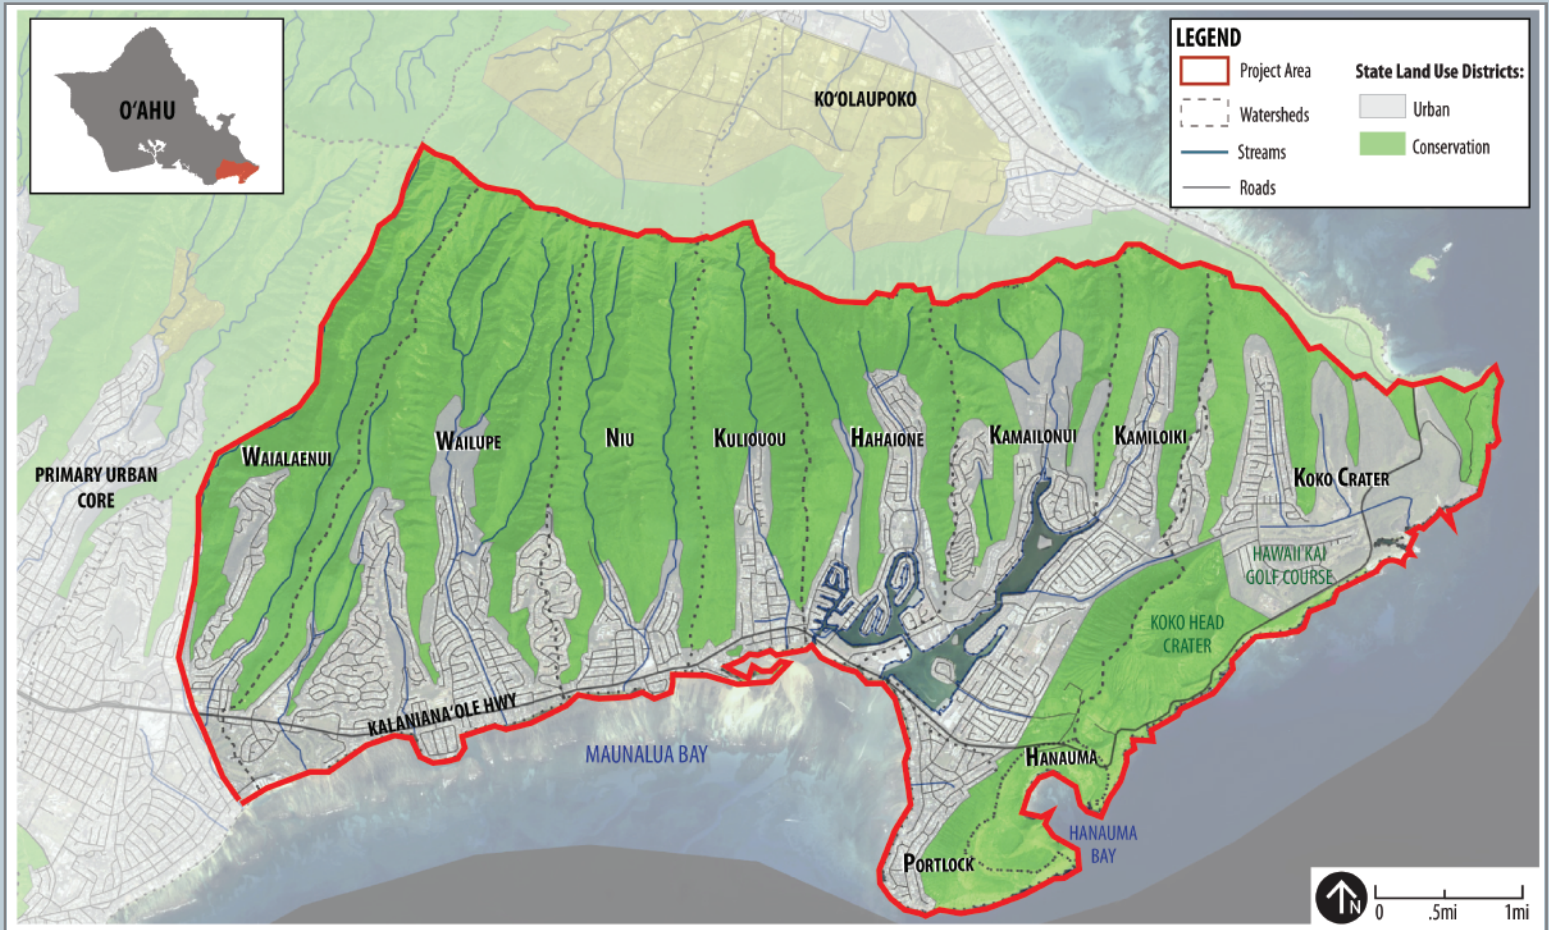

- 1) **Inclusive** community participation and consultation.
- 2) **Holistic** management of watershed resources.
- 3) **Policy alignment** with important State and City policies and programs.
- 4) **Action orientated** to facilitate implementation of important watershed management programs.
- 5) **Ahupua'a-based** management principles.

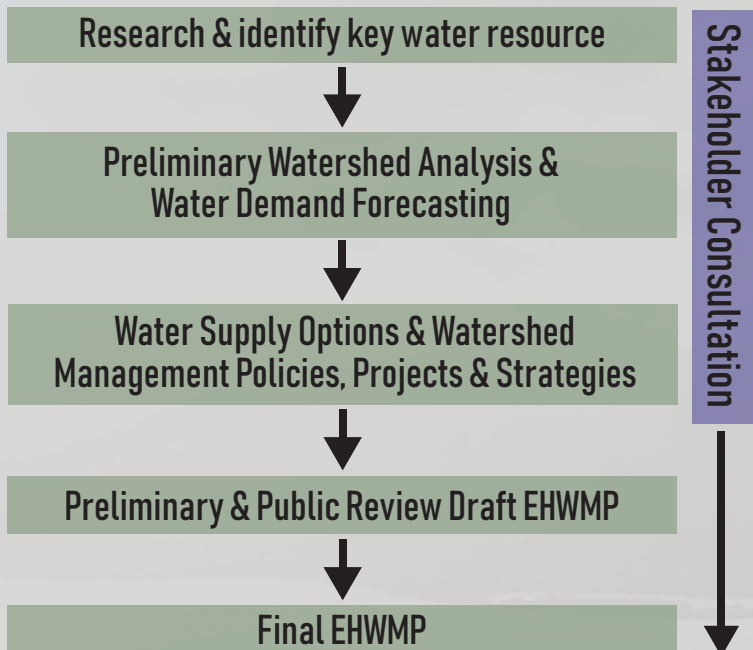

# Project Area: Kahala to Hawaii Kai

**District Size**  
15,042 Acres

**District Population**  
48,100 (2010 Estimate)

## Planning Process

## EHWMP Objectives

- 1) Promote sustainable watersheds.
- 2) Protect and enhance water quality and quantity.
- 3) Protect Native Hawaiian rights and traditional customary practices.
- 4) Facilitate public participation, education, and project implementation.
- 5) Meet future water demands at reasonable costs.
